

→ MID VOLUME **DP355 [FRANKING SYSTEM]**

DP355

DP355 → MAXIMISE OFFICE PRODUCTIVITY

→ PROFESSIONAL IMAGE

→ EASILY ADD A CUSTOM TEXT MESSAGE WITH THE QWERTY KEYBOARD

Every business needs to operate as efficiently as possible. Even daily, routine tasks need to be performed in a productive manner. The easy-to-use, DP355 Mailing System will amaze you with its simplicity and advanced capabilities.

THE POWER OF INTELLILINK®

The cutting-edge IntelliLink® technology contained within the DP355 provides an easy to use secure gateway to advanced features and services. IntelliLink gives you access to a suite of services ensuring your system is kept current and operates at maximum efficiency. These include automatic downloads of postal rate changes and software upgrades. The DP355 also has the capability to download logos and advertising slogans transforming once manual processes into quick operations.

→ **Correct value postage - every letter, every time**

The DP355 incorporates a 5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value. There are also options for 7kg, 12kg and 35kg interfaced weighing platforms. Differential weighing technology enables batches of mixed mail to be processed quickly and efficiently. The differential mail feature means that a collection of mail can be placed on the scale and the machine will calculate the correct postage for each mail piece as it is removed from the pile.

→ **Information management**

It's crucial for businesses to account for postage expenses. Departmental or client postage spend can be easily tracked and reported with the 100 accounts available on the DP355. Reports can either be printed or there's the option of exporting to a PC for further analysis.

→ **Strengthen your brand with targeted and effective mailing**

Transform your mail piece into eye-catching communications. Advertise your business on every mail piece with sharp inkjet printing to build your professional image. Print a return address or message alongside your customised slogan to ensure undelivered mail is returned thus improving the accuracy of your mailing database and ultimately reducing expenditure on subsequent mail shots. These are easily entered via a built-in qwerty keyboard.

→ **Energy start compliant**

Energy Start qualified mailing machines automatically enter a low-power "sleep" mode after a period of inactivity. Spending a large portion of time in low-power mode not only saves energy but helps printing equipment run cooler and last longer.

→ **Franking Discounts - save money on your post**

By switching to a franking machine you will receive a discounted price compared to using stamps, a minimum of two pence. There's discounted prices for first and second class mail, plus Recorded, Special Delivery and International Airmail.

→ **Savings of up to 20% off standard mail costs with Cleanmail® Advance available through the DP355.**

By preparing your mail so that Royal Mail's automated technology can read and verify the address and postcode, you can obtain a discount from the franking tariff price.

Preparing your mail you've helped Royal Mail to sort automatically and so they offer **savings of up to 20% off** standard mail costs.

For further details or a discussion of your individual mailing requirements, contact Franking Machine Company today on 0151 494 2525.

DP355 FEATURES

- **Fast, accurate postage re-crediting**
IntelliLink® technology provides convenient, one-touch postage refills with PostagebyPhone®.
- **Always up to date**
IntelliLink® technology provides effortless, hassle free, postal rate downloads and software updates. With IntelliLink® technology you can be sure that your equipment is always up to date.
- **Easy to use**
All controls are fully integrated on one clear easy to use control panel with user-friendly instructions to guide the operator through each stage of processing mail.
- **Reduced mail preparation time**
Seal and frank your envelopes at the same time, resulting in a professional ready to mail document. Larger mail is quickly processed with self adhesive tape strips. Time is saved with 5 presets for your most commonly used jobs.
- **Auto-Dating eliminates returned mail due to misdating**
An internal clock advances the date automatically. Operators can advance the date to get a head-start on processing tomorrow's mail.
- **Incoming mail dating**
Date and time stamping capability ensures your incoming mail is handled efficiently by providing the option of recording when it arrived.
- **Handle rate changes easily**
IntelliLink® technology allows postage rate changes to occur automatically.
- **Digital technology is a gateway to the future**
The DP355's digital meter satisfies all current postal regulations, and the technology's flexibility makes the DP355 adaptable for the future.
- **Savings of up to 20% off standard mail costs**
With Cleanmail® Advance available through the DP355 franking machine.
