

→ HIGH VOLUME **DP41AF [FRANKING SYSTEM]**

DP41AF

DP41AF → THE NEW DIMENSION TO COST-EFFECTIVE MAILROOM MANAGEMENT

→ PROFESSIONAL IMAGE

→ EASY TO USE DISPLAY

→ 3KG INTERFACED SCALE AS STANDARD

The DP41AF brings a whole new dimension to cost-effective mailroom management, with high performance features and sophisticated accounting facilities.

DP41AF IntelliLink enabled

IntelliLink revolutionizes the mailing system's ability to communicate. Your mailing system connects via IntelliLink to the world wide web to provide you access to new features as required. With a simple connection to a phone line, IntelliLink will automatically support your operations by downloading updated software to ensure your mail is processed efficiently.

Speed

The DP41AF will prove its worth to you time and time again, by handling your mail at cycle speeds of up to 5,400 frankings per hour.

'Intelligent' Franking Management

The DP41AF is a total postal management station. With the facility for many accounts and sub-accounts, it allows comprehensive accounting analyses of postal expenditure. At any time, the DP41AF can print a postal summary which shows the overall franking amount for the current month and the previous month as well as the totals for a specific account. Connected to a printer, it can also print out full accounting or statistical reports:

statements and totals of postal expenditure per type of package, account, department, weight, etc.

Speed up mail processing even further with the DP41AF range of peripherals

The availability of peripherals such as an integrated weighing tray, automatic label dispenser and envelope feeder-sealer enables the DP41AF not only to simplify mail processing, but also handle large volumes of mail very quickly.

Use your envelopes as an advertising medium

The DP41AF offers an unprecedented range of printing options: superb print quality (inkjet technology) and more space for you advertising slogans (70 x 24 mm). It can also print postal descriptions and up to 6 lines of user text. The fully digital DP41AF can also store up to 8 separate advertising slogans and can switch instantly from one program to another.

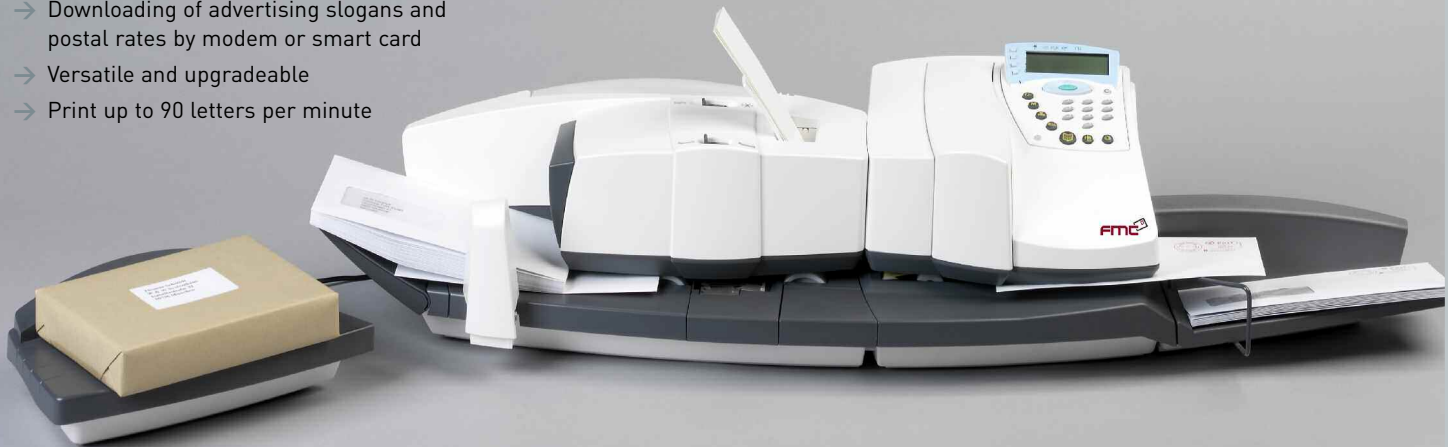

The DP41AF can store four user texts: new address, promotions, latest information, etc. Details are simply entered using the keyboard. In addition, the DP41AF can store various postal services depending upon postal regulation (First Class, etc).

For further details or a discussion of your individual mailing requirements, contact Franking Machine Company today on 0151 494 2525.
