→ BARCODE SCANNER  
SCAN ACCOUNTS WITH BUDGET  
MANAGER QUICKLY AND  
ACCURATELY

The DP599 digital franking machine links you to a range of exclusive mail services via Intellilink® while automatically feeding, sealing, printing and stacking mail at speeds up to 160 letters a minute.

The DP599 mailing system can feed various sized mail up to 16mm in thickness, and can handle up to 300 optional accounts or more with Budget Manager or MeterNet™. With the DP599 mail can be automatically processed using Dimensions-on-the-Way™ and Weigh-on-the-Way™ technology.

Mail is a vital tool for communicating with your customers, whether it is in the form of invoicing, marketing, product shipment, or other important communications. Yet, for many businesses, mail is the last frontier for business process improvements. Advancements in technology make this a great time to streamline your mail centre. The DP599 Digital Mailing System is the first step to improved processes. It's easy to use, reliable and delivers high levels of productivity - configured in a way that meets your specific needs. It's a business solution that brings cost controls, process improvements and accounting functions right to your mail centre.

Designed for busy mailers, the DP599 can help you automate your mail centre and make it run as efficiently as other parts of your business.

**BRING COST CONTROL TO YOUR MAIL OPERATIONS WITH THE DP599**

Tackle the challenges of controlling costs, managing chargebacks and reporting on mail centre performance. The DP599 Series gives you the ability to configure an information management solution from tracking basic pieces and postage accounting to detailed reporting with Budget Manager. For more extensive reporting or enterprise-wide postage accounting and consolidation, the DP599 can network with Meternet™, a PC-based information management system.

→ **Savings of up to 20% off standard mail costs with Cleanmail® Advance available through the DP599.**

By preparing your mail so that Royal Mail's automated technology can read and verify the address and postcode, you can obtain a discount from the franking tariff price.

Preparing your mail you've helped Royal Mail to sort automatically and so they offer **savings of up to 20% off standard mail costs.**

**For further details or a discussion of your individual mailing requirements, contact Franking Machine Company today on 0151 494 2525.**

## DP599 FEATURES

- **Weigh-on-the-Way™ (W-o-W™) and Dimensions-on-the-Way™ (D-o-W™)** - The unique combination of W-o-W™ and D-o-W™ technology provides automatic processing for mail that's both mixed size and mixed weight. As the mailpiece passes through the franking machine its size is checked to determine which Pricing in Proportion format it belongs to and it's also weighed; the correct postage for the selected class is then automatically applied. This increases productivity and ensures accurate postage.
- **Differential Weighing** - This option gives you maximum flexibility. Process mixed weight mail pieces and parcels in the same batch right from the scale. The system will calculate the postage based on the difference in weight as packages are removed.
- **No delays in getting postage refills** - Re-credit your meter with postage by simply pressing the button to activate the on-line connection to postage-by-phone. Get up to 55 days free credit, with Purchase Power, the post now pay later facility.
- **Minimise costs** - The drop and feed roll tape dispenses labels that are cut to size, reducing supplies usage.
- **Increased productivity** - Innovative design features such as advanced detection sensors, auto-class select and auto-tape mode, maximise throughput, reduce stoppages and minimize maintenance requirements.
- **Razor sharp digital printing** - Produce professional looking mail every time with the patented single inkjet head to give your mail that "open me" look.
- **Automatic advertising** - Customise your messages by choosing from up to 10 slogans to promote your company and enhance the image of your mail.
- **Pre-date mail Mail** - can be pre-dated up to 31 days in advance giving the mailroom enough time to prepare mailshots.
- **Savings of up to 20% off standard mail costs** With Cleanmail® Advance available through the DP599 franking machine.
