[U-70 → **HIGH PERFORMANCE FRANKING SOLUTION FOR BUSY MAILROOMS**]

→ MAKE LIGHT WORK OF LONG RUNS

→ BETTER COST CONTROL

→ THE SIMPLE SOLUTION TO ALL SIZED MAIL

The U-70 is an advanced, automatic mail processing system that combines modular flexibility with advanced performance to deliver a comprehensive mailing solution for your business.

Its advanced functionality provides your mailroom with increased productivity and higher efficiency, handling even the most complex mailing jobs with ease and offering full packet and parcel versatility. And yet, it is extremely easy to use.

The U-70's advanced inkjet technology produces a crisp, clear frank and a clean, positive message about your business.

Choose from a selection of customised promotional slogans, and create or adapt your own text messages in just seconds.

- Envelope processing speeds of up to 150 letters per minute
- Differential weighing option automatically calculates postage
- Track expenditures for up to 200 departments
- Interface with a PC to export mailing data and reports

THE SIMPLE SOLUTION TO ALL SIZED MAIL

The U-70 can interface with integrated weigh platforms to automatically calculate and apply correct postage. You can even weigh a selection of items using differential weighing, which calculates the postage for each piece removed from the platform. A built-in label dispenser produces selfadhesive franked strips for posting larger items.

A WIDE CHOICE OF WEIGHING PLATFORMS

With a choice of 3, 5, 10 or 30kg integrated weighing platforms, the U-70 is designed to fit every mailing profile. FMC's dynamic scale checks the weight, length, width and thickness as letters pass to the machine, automatically and accurately adjusting the postal rate.

BETTER COST CONTROL

Instead of carrying postage costs as an overhead, the U-70 lets you allocate them to cost centres, with capabilities for up to 200 departments. Accounting records can be printed onto franking labels or through an external printer.

For further details or a discussion of your individual mailing requirements, contact Franking Machine Company today on **0151 494 2525.**

U-70 STANDARD OPERATING FEATURES

- Process up to 150 envelopes per minute
- Feed mail up to 16mm thick
- Automatically seal envelopes and apply exact postage
- Program up to 10 jobs into memory for one-touch activation
- Control and allocate postal costs for up to 200 accounts
- Connect to a pc to track, analyse and manage postal expenditures

U-70 FEATURES

MAKE LIGHT WORK OF LONG RUNS

The U-70 has an automatic feeder that allows you to process up to 150 letters a minute. A sealer will automatically close gummed envelopes, and you can add a conveyor-stacker to neatly collect your mail – saving even more time and boosting mailroom productivity.

PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organisation. A choice of nine customised slogans can be loaded from memory cards and you can add your company name, greetings, slogans – even logos and photographs.

UPGRADE TO MAILROOM CAPABILITIES

Linked to a folder inserter, the U-70 gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It deals with your mail ten times faster than a staff member could, and can also be used for mailshots and other marketing activities.

EASY TO USE, WHATEVER THE JOB

Whether for a handful of envelopes or a big mailing run, the U70's easy to read display and one-touch controls make operating easy.

Long-lasting ink cartridges reduce cost-per-impression and can be replaced in seconds. And new postal rates can easily be uploaded from digital memory cards when required.
