What is Mailmark Franking?

Mailmark Franking is the Royal Mails newest and most efficient Franking mark. It supersedes the traditional 'town and crown' die with an even faster, machine readable 2D barcode.

MailMark will always be the lowest cost tariff for sending any single franked letter.

The Royal Mail have announced that MailMark can be accessed via any MailMark™ Compatible Franking Machines from April 2014 onwards.

If your franking Machine is not operational or compatible with MailMark dont panic. Mailmark is only an additional way of printing a postage indicia and it will not be a replacement to the current franking machine 'Value' print.

Mailmark will be beneficial in a number of ways including being more cost effective than using postage stamps and maybe cheaper than a traditional franked impression.

To receive the most cost effective competitive Mailmark franking machine quotation simply call us on 0800 955 2341 and we will get back to you with some ideal Mailmark solutions specifically designed for you.

MAILMARK BENEFITS:

- A price difference to receive the maximum in postal discounts when using a franking machine to access Mailmark™.
- A new Business Reply offering that you can frank on your machine and send in the post with your letter contents for customers to return to you. This will enhance your responses and help further increase profits.
- Royal Mail postal price change updates that will instantly apply on the day of the change which will avoid underpayment surcharges and the grief that goes with it.
- You can finally drop your 'Analogue line or stop blocking your faxline as all Mailmark™ compatible franking machines will connect via LAN making life simpler and faster.
- With a Mailmark™ compatible Franking Machine you will also benefit from presenting the most professional image on your mail and you can still add your own company logo and external return address.
- Enhanced reporting information via online mail reports providing you with real time usage information to keep a closer eye on your postage expenditure.
